Please make sure to follow all requirements listed here to avoid any issues

Package requirements: 1) No electronic items, no sealed units, no circuit board, and no beverage food cans in the container, otherwise shipments will be rejected by destination. 2) All motor scrap (except straight loads of motors or shemos) and all brass scrap loads going to Ningbo /Hamen must be loaded in bales, supersacks or boxes. Items cannot be separated by cardboard. If materials load incorrectly, cargo will be rejected and all associated charges will pass on to supplier 3) All shipments going to Ningbo/Haimen ports that have wood packing must be heat-treated wood, and supplier must notify us there is wood loaded including wood bracing at the door. If both requirements are not met, overseas Customs may suspend our license.	Photos requirements: *All photos except seal photo must show full cntr# ** 1) At least 10 pictures are required for each container 2) Empty container 3) Half loaded 4) Fully loaded with 2 doors open; if there is blocking at the door, take 1 photo showing blocking and 1 photo showing no blocking. 5) Fully loaded with right door closed and left door opened 6) Fully loaded with 2 doors closed with seal already attached. 7) Seal photo showing readable seal number, with seal tag on the container. 8) If materials are packed in boxes, show the materials inside the boxes 9) If there is wood packing, show wood and heat treatment stamp. ** Digital color photos are required in .JPEG format of 640 x 480
